Re: Proceeding 05-247

I am a Continental Airlines frequent flyer and member of its Presidents Club. I support Continental's Petition to the FCC.

Continental Airlines operates its President Club locations as a service to frequent flyers and part of that service is offering seamless wireless internet access at all locations free of charge. Continental Airlines should be permitted to continue providing this valuable service within in the confines of its President Club locations at Boston Logan and other airports. As a frequent traveler I should not be held hostage by the monopolistic agreements between the various authorities operating our nation's airports and companies wanting to provide wireless internet access to the general public.

I rely on Continental's seamless service wherever I fly. Thank you for ensuring the right of the public to use the wireless service of its choice.
